

Welcome back for the 2011 season!

We hope you are looking forward to the 2011 season as much as we are! Last season was successful and we loved hearing the compliments on the new docks, we're proud to say that we have continued with the rebuilding process. The final remaining old wobbly tire docks have been removed and we're now in the process of building new steel tube docks to replace them. The new docks are sturdy, safe and should give us many years of trouble free service. Nautilus is committed to upgrading and improving a bit more each year so that we can offer our customers the top notch facilities and services that they deserve.

Lake Country Grill is looking forward to the new season and to showing off their new restaurant renovation. They now have upgraded kitchen equipment and the dining room has been expanded to have a panoramic view of the channel. Rob and Dianna would like you to have a look at their new web site. Go to www.lakecountrygrill.com

Purser Marine Services is also gearing up for the new season, please look for the spring launch forms when they send them out in the spring.

Please print the attached "Services required" form, fill it out and send it back, make sure to read the instructions at the bottom of the form for all the details. Please call me with any questions. **If anything about your boat or boat insurance changes you need to fill out a new OMOA Mooring Agreement.** Just let me know and I will send you one.

Also please read the marina rules and regulations included with this package, it is mostly just common sense things that help to improve the quality and safety of everyone's boating experience.

If there are any questions or concerns please give me a call here at the marina. Let's have a safe and fun boating season in 2011.

I'm looking forward to seeing you in the spring,
Sincerely,
Stephen Denington
